DEPARTMENT OF TRAINING & PLACEMENT  
KALINGA INSTITUTE OF INDUSTRIAL TECHNOLOGY (KIIT)  
DEEMED TO BE UNIVERSITY, BHUBANESWAR (ODISHA)

---

No. KIIT-DU/T&P/25/302

Date : 4<sup>th</sup> April'2025

Kind Atten<sup>n</sup> : 2026 Graduating B.Tech (CSE/CS&CE/CS&SE/IT/E&CSE), M.Tech  
(CSE/CS&IS/Data Analytics/SE) & MCA Students

This is to inform all the above students that **Zynetic** will be conducting an Internship cum performance based PPO Recruitment Drive .

Interested eligible students are directed to **REGISTER** in the link given below on or before **5<sup>th</sup> April'2025 by 1.00 PM** to participate to for the same.

<https://tinyurl.com/Registration-Zynetic-2026>

Profile Offered	:	Backend Developer Intern
	:	Frontend Developer Intern
	:	Kotlin Multiplatform Developer Intern
Eligibility Criteria	:	60% throughout the Academic Career
	:	No Backlogs
Process	:	To be informed
Joining	:	June'2025
Duration	:	June2025 – April 2026
Joining Location	:	Delhi or Hyderabad Office
Stipend	:	Rs. 25,000 Per Month
CTC	:	Rs. 8.00 LPA post conversion to PPO

**Note:**

**Pre-Placement Offer (PPO) will be offered based on the performance during the internship and requirement of the company.**

Prof.(Dr.) Prachet Bhuyan  
Professor & Dean (T&P), KIIT-DU

NB:

1. The Company will be short listing from the registered students list.
2. Find below the Job Description for your reference.

**Job Description**

**Backend Developer Intern**

**What You'll Do**

- Develop scalable backend APIs and microservices using Java Spring Boot.
- Work with SQL (MySQL, PostgreSQL) & NoSQL (MongoDB, Redis) databases for efficient data storage and retrieval.
- Optimize backend performance to handle high-concurrent transactions.
- Implement authentication, authorization, and security best practices.

- Collaborate with frontend developers, DevOps, and product teams to deliver seamless applications.
- Participate in code reviews, debugging, and performance tuning.
- Gain exposure to cloud-based deployment and CI/CD pipelines.
- Understand EV charging network integrations and how backend systems power real-time EV charging in India and Dubai.
- Get immersed in the UAE market to understand how backend solutions support international operations.

### **Who Should Apply?**

- Proficiency in Java & Spring Boot Framework with a deep understanding of RESTful API development.
- Strong knowledge of SQL databases (MySQL, PostgreSQL) and NoSQL (MongoDB, Redis, DynamoDB).
- Understanding of Microservices architecture and API security best practices.
- Basic familiarity with cloud services (AWS, GCP, or Azure) is a plus.
- Self-driven, eager to learn, and passionate about building scalable backend architectures.

### **What's in it for You?**

- Direct mentorship from senior backend engineers & CTO, working on real-world projects.
- Exposure to the UAE market, learning how backend technologies support international business operations.
- Work in a high-growth, tech-driven startup, where innovation and problem-solving are encouraged.

## **Frontend Developer Intern**

### **What You'll Do**

- Develop responsive, high-performance web applications using React.js and Next.js.
- Build interactive dashboards, real-time analytics, and intuitive UI components.
- Optimize frontend applications for speed, performance, and cross-platform responsiveness.
- Work closely with backend developers, UX designers, and product teams to create seamless experiences.
- Implement state management using Redux, Zustand, or Context API.
- Ensure cross-browser compatibility and accessibility for all applications.
- Write clean, maintainable, and scalable code following best practices.
- Learn and contribute to real-world product development in the EV tech space.
- Gain international exposure to the UAE market, understanding frontend needs for charging station operations in Dubai and other Emirates.

### **Who Should Apply?**

- Proficiency in React.js and Next.js with a strong understanding of JavaScript (ES6+), TypeScript, HTML, and CSS.
- Experience with modern UI libraries like Tailwind CSS, Material UI, or Bootstrap.
- Basic knowledge of RESTful APIs and API integration.
- Familiarity with Git, version control, and basic CI/CD workflows.
- Enthusiastic problem-solvers who enjoy building user-friendly, scalable web applications.
- Bonus Skills (Good to Have)

- Understanding of Java Springboot.
- Experience with GraphQL & Apollo Client.
- Basic exposure to backend technologies
- Knowledge of performance optimization, lazy loading, and SSR (Server-Side Rendering).

### **What's in it for You?**

- Direct mentorship from senior frontend engineers & CTO, working on real-world projects.
- International market exposure to the UAE, understanding global business and tech requirements.
- Opportunity to work in a high-growth, tech-driven startup shaping the future of EV mobility.

## **Kotlin Multiplatform Developer Intern**

### **What You'll Do**

- Develop cross-platform applications using Kotlin Multiplatform (KMP).
- Work with Jetpack Compose & Swift UI to create seamless UI experiences for Android & iOS.
- Build scalable, modular, and high-performance code bases.
- Optimize networking, data persistence, and real-time updates across multiple platforms.
- Collaborate with backend engineers and API developers to integrate services efficiently.
- Ensure code reusability across platforms while maintaining platform-specific optimizations.
- Conduct testing & debugging to ensure a smooth user experience.
- Gain international business exposure to the UAE market, learning how mobile applications enhance EV charging station operations in Dubai and other Emirates.

### **Who Should Apply?**

- Proficiency in Kotlin, Jetpack Compose, and Android development.
- Basic knowledge of Swift, SwiftUI, and iOS development.
- Familiarity with RESTful APIs, WebSockets, and Firebase.
- Understanding of MVVM architecture, dependency injection (Dagger/Hilt/Koin), and state management.
- Experience with Git, version control, and agile development workflows.

### **Bonus Skills (Good to Have)**

- Exposure to KMM (Kotlin Multiplatform Mobile) for iOS and Android apps.
- Experience in building cross-platform apps with Compose Multiplatform.
- Understanding of real-time data synchronization, caching strategies, and offline support.
- Basic knowledge of CI/CD pipelines for mobile app deployment.

### **What's in it for You?**

- Direct mentorship from senior engineers & CTO, working on real-world projects.
- International exposure to the UAE, understanding the global EV mobility landscape.
- Opportunity to work in a high-growth, tech-driven startup shaping the future of EV mobility.

### **About Zynetic**

Zynetic is a fast-growing Charge Point Operator (CPO), revolutionizing EV charging infrastructure across India and Dubai. We are building intelligent, high-performance software solutions to enhance the EV charging ecosystem. As we expand, we are looking for a Kotlin

Multiplatform Developer Intern to help us develop cross-platform applications that work seamlessly across Android, iOS, and web.

This internship provides hands-on experience in Kotlin Multiplatform (KMP), Jetpack Compose, and cross-platform development, along with international market exposure to the UAE.
